About

A driven and passionate 3rd-year Computer Science student at USTP, with a strong background in AI, robotics, and software development. Looking to contribute technical and innovative skills to impactful projects in machine learning, edge computing, and smart systems.

Educational History

SHS STEM | 2020-2022

BSCS Undergrad | 2022-Present

UNIVERSITY OF SCIENCE AND
TECHNOLOGY OF SOUTHERN PHILIPPINES

C.M. Recto Avenue, Lapanan, Cagayan de Oro,
Misamis Oriental (<https://www.ustp.edu.ph/>)

- DOST Scholar
- Core Team Lead (CS Student Council Org)
- Robotics Competitor
 - Junior High to Present
 - Represented in regional and national robotics competitions.

Work Experience

Freelancing Remotask | Feb-Jul 2021

- annotation 3d models
- lidar annotation
- image segmentation
- transcription

Digital Skills

- Analytical and Research | knowledge of Robotics hobbies: playing computer games, reading, sport | Basic knowledge Electronics, robotics, microcontroller programming
- **PROGRAMMING** Experience with Python, SQL, HTML, CSS, JavaScript, dart | Raspberry Pi | Work with Arduino | Microsoft Office
- **ROBOTICS** Experience in robotics software and hardware design using microcontrollers ood knowledge of TinkerCAD C,C++,Python,Arduino PLC programming, Tinkering with Arduino, Panel Designing, IOT C, C++,C#
